UNIVERSITY SEAL AND MOTTO

Soon after Northwestern University was founded, its Board of Trustees adopted an official corporate seal. This seal, approved on June 26, 1856, consisted of an open book surrounded by rays of light and circled by the words *Northwestern University, Evanston, Illinois*.

Thirty years later Daniel Bonbright, professor of Latin and a member of Northwestern's original faculty,

redesigned the seal, retaining the book and light rays and adding two quotations. On the pages of the open book he placed a Greek quotation from the Gospel of Saint John, chapter 1, verse 14, translating to *The Word . . . full of grace and truth*. Circling the book are the first three words, in Latin, of the University motto: *Quaecumque sunt vera* (Whatsoever things are true). The outer border of the seal carries the name of the

University and the date of its founding. This seal, which remains Northwestern's official signature, was approved by the Board of Trustees on December 5, 1890.

The full text of the University motto, adopted on June 17, 1890, is from the Epistle of Paul the Apostle to the Philippians, chapter 4, verse 8 (King James Version).

NORTHWESTERN UNIVERSITY

*Whatsoever things are true,
whatsoever things are honest,
whatsoever things are just,
whatsoever things are pure,
whatsoever things are lovely,
whatsoever things are of good report;
if there be any virtue,
and if there be any praise,
think on these things.*

To our guests

Commencement is the highlight of the academic year. It is that significant occasion, both solemn and joyful, when we honor those students who have completed their course of study. Commencement is important to all of you, the University, and its faculty, staff, and students. To enhance the dignity of the event, you are respectfully requested to avoid unnecessary conversation and moving about during the ceremony.

Please silence all cell phones and pagers. Guests are not permitted on the field at any time.

Smoking is not permitted in Ryan Field or McGaw Memorial Hall.

HENRY S. BIENEN

President

Henry S. Bienen was elected the 15th president of Northwestern University on June 13, 1994. He took office on January 1, 1995.

Mr. Bienen was the James S. McDonnell Distinguished University Professor and dean of the Woodrow Wilson School of Public and International Affairs at Princeton University prior to his appointment at Northwestern.

A political scientist with interests in political and economic development, comparative politics, civil-military relations, and U.S. foreign policy, Mr. Bienen began his association with Princeton University in 1966 as an assistant professor. He was named associate professor of politics and international affairs at Princeton in 1969 and professor of politics and international affairs in 1972. He was appointed the William Stewart Tod Professor of Politics and International Affairs at Princeton in 1981 and the James S. McDonnell Distinguished University Professor in 1985.

Mr. Bienen is one of three university presidents awarded the Carnegie Corporation Academic Leadership Award for innovative leadership in higher education. The honor carries a \$500,000 award for the institution and recognizes leaders of institutions of higher education who have demonstrated an abiding commitment to liberal arts and who have initiated and supported curricular innovations, including development of interdisciplinary and multidisciplinary programs that aim to bridge the gulf between the theoretical and the practical.

Mr. Bienen is a member of the board of directors of the Bear Stearns Companies Inc. and Deltak edu., Inc. He is a member of the board of directors of the Council on Foreign Relations, serving as chair of the nominating and governance committee and a member of the executive committee. Also a member of the board of directors of the Chicago Council on Foreign Relations, he serves on its executive committee. Mr. Bienen was named to the Argonne National Laboratory's Board of Governors and will serve as a member of the board's executive and nominating committees.

Other board and trustee memberships include JSTOR, the John G. Shedd Aquarium, Steppenwolf Theatre, and the Alain Locke Charter School. Mr. Bienen serves on the executive committee of the Association of American Universities and is a member of the American Political Science Association.

Mr. Bienen has been a visiting professor at Makerere College in Kampala, Uganda (1963-65), at University College in Nairobi (1968-69), at Columbia University (1971-72), and at the University of Ibadan (1972-73). He was a fellow at the Center for Advanced Studies in Behavioral Sciences at Stanford University (1976-77), a Polsky Fellow at the Aspen Institute (1982-83), and a member of the Institute for Advanced Studies at Princeton (1984-85).

Mr. Bienen has been a consultant to the U.S. Department of State (1972-88), the National Security Council (1978-79), the Agency for International Development (1980-81), the Central Intelligence Agency (1982-88), and the World Bank (1981-89). He served as a member of the senior review panel of the CIA in the late 1980s.

He also has been a consultant to Hambrecht and Quist Investment Company, the Boeing Corporation, and the Carnegie Corporation as well as to the Ford Foundation, the Rockefeller Foundation, and the John D. and Catherine T. MacArthur Foundation.

He served as a member of the Committee on Roles of Academic Health Centers in the 21st Century at the National Academies' Institute of Medicine and on the board of the University Corporation for Advanced Internet Development (Internet 2) from 1998 to 2002.

Mr. Bienen received a bachelor's degree with honors from Cornell University in 1960 and a master's degree from the University of Chicago in 1961. He was awarded a PhD from Chicago in 1966. In 2000 he received the University of Chicago Professional Achievement Alumni Award.

Mr. Bienen and his wife, Leigh, a senior lecturer at Northwestern University School of Law, have three daughters and five grandsons.

PATRICK G. RYAN

Chair, Board of Trustees

Patrick G. Ryan is executive chairman of Aon Corporation, a global leader in risk management, insurance and reinsurance brokerage, and human capital consulting and outsourcing, with 53,000 employees in more than 500 offices located in more than 120 countries. Mr. Ryan started as an entrepreneur and merged his company to form what ultimately became Aon.

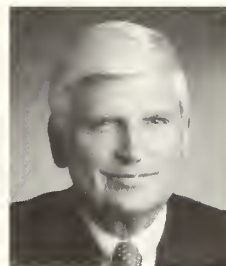

One of Chicago's most visible business and civic leaders, Mr. Ryan was named the 2002 International Executive of the Year by Brigham Young University and was the 2002 recipient of the Golden Plate Award from the Academy of Achievement. He has also received the Horatio Alger Association of Distinguished Americans Award.

His numerous other tributes include 2001 Man of the Year, the Greater Chicago Chapter of the Juvenile Diabetes Research Foundation; 1997 Executive of the Year Award, *Crain's Chicago Business*; Insurance Leader of the Year, College of Insurance; the Order of Lincoln Medallion, Illinois's highest award, recognizing a lifetime of accomplishment; the Business Statesman Award, Harvard Business School Club of Chicago; the Distinguished Leadership Award, Chicagoland Chamber of Commerce; the Chicago Historical Society's Marshall Field History Maker Award for Distinction in Corporate Leadership and Innovation; the Distinguished Citizen Award, Chicago Area Council of Boy Scouts of America; the President's Medal, Loyola Academy; 1999 Free Enterprise Award, the Insurance Federation of New York; and the Distinguished American Award, Chicago chapter of the National

Football Foundation and College Hall of Fame. Mr. Ryan is also a member of the Chicago Business Hall of Fame and a member and past president of the Economic Club of Chicago.

Mr. Ryan and his wife, Shirley, were awarded the 1998 Distinguished Philanthropist Award. They founded and are active in the Pathways Center for Children and the Pathways Awareness Foundation, dedicated to serving the needs and interests of children and young people with physical-movement difficulties.

Mr. Ryan received a bachelor's degree in business from Northwestern in 1959.

HISTORY OF NORTHWESTERN

The founding of Northwestern University by nine devout Methodists embodied a mixture of religious conviction and secular optimism that is uniquely American. Meeting above a hardware store in the burgeoning frontier town of Chicago, these nine men resolved on May 31, 1850, to establish an institution of “the highest order of excellence” to serve the people of the original Northwest Territory as established by the Northwest Ordinance of 1787 (Ohio, Indiana, Illinois, Michigan, Wisconsin, and part of Minnesota). The 1851 Act of Incorporation creating Northwestern University contained a provision reflecting the strong religious beliefs of its founders but requiring no particular religious faith of students or members of the faculty.

Only one of the founders, physician John Evans, was a college graduate. The quintessential renaissance man, he built railroads, founded both the Illinois Medical Society and the Illinois Republican Party, and was a confidante of Abraham Lincoln, who appointed him governor of the Colorado Territory. Evans guided Northwestern during its critical early years, chairing the Board of Trustees from the time of the University’s founding in 1851 until his death in 1897. The town that grew up around Northwestern was named Evanston in his honor.

Northwestern grew and prospered under Evans’s stewardship. In 1853 the University bought and began to develop 379 acres of lakeshore farmland. By 1855 the University had completed its first building and opened a College of Liberal Arts comprised of two faculty members and ten male students. By 1869 Northwestern had admitted its first female students; four years later, it negotiated a merger with the Evanston College for Ladies, whose president, eminent suffragette and temperance movement leader Frances E. Willard, became Northwestern’s first dean of women.

At the turn of the century Northwestern consisted not only of a liberal arts college but also six undergraduate and graduate professional schools, including the schools of law and medicine in Chicago. With the establishment of the Graduate School in 1910, Northwestern adopted the German university model of providing graduate as well as undergraduate instruction, emphasizing research along with teaching.

The University’s development since then has paralleled the growth of metropolitan Chicago. Today Northwestern is a private research university of distinction, with 11 academic divisions located on two lakefront campuses in Evanston and Chicago; it has approximately 2,500 full-time faculty, 14,000 full-time students, and an annual budget exceeding \$1.4 billion. Northwestern’s vision of excellence — although faithful to its founding — invigorates a territory far beyond the old Northwest Territory through the accomplishments of its alumni and by virtue of a distinguished faculty and highly selective student body drawn from across the nation and around the world.

SCHOOLS OF THE UNIVERSITY

The **Judd A. and Marjorie Weinberg College of Arts and Sciences**, established in 1851 as the College of Liberal Arts, offers the degree of bachelor of arts. Through the School of Continuing Studies, the Weinberg College of Arts and Sciences also offers the degrees of bachelor of philosophy and bachelor of science in general studies.

The **School of Communication**, established in 1878 as the School of Oratory and later renamed the School of Speech, offers the degrees of bachelor of arts in communication, bachelor of science in communication, master of science in communication, and doctor of audiology. Through the School of Continuing Studies, the School of Communication also offers the degree of bachelor of philosophy in communication.

The **School of Continuing Studies**, established in 1933 as University College, offers courses leading to the degrees of bachelor of philosophy and bachelor of science in general studies, conferred by the Weinberg College of Arts and Sciences; the degree of bachelor of philosophy in communication, conferred by the School of Communication; the degrees of master of arts in liberal studies, literature, creative writing, and public policy and administration, conferred by the Graduate School; and the degree of master of science in computer information systems, conferred by the McCormick School of Engineering and Applied Science.

The **School of Education and Social Policy**, established in 1926 as the School of Education, offers the degrees of bachelor of science in education and social policy and master of science in education and social policy.

The **Robert R. McCormick School of Engineering and Applied Science**, established in 1909 as the College of Engineering, offers the degrees of bachelor of science, master of biotechnology, master of engineering management, master of information technology, master of project management, and master of science in product development. Through the School of Continuing Studies, the McCormick School also offers the degree of master of science in computer information systems.

The **Graduate School**, established in 1910, administers all advanced programs leading to the degrees of doctor of philosophy, master of arts, master of fine arts, master of public health, and master of science.

The **Medill School of Journalism**, established in 1921 and named in honor of pioneering Chicago journalist Joseph Medill, offers the degree of bachelor of science in journalism as well as master of science degrees in journalism and integrated marketing communications.

The **School of Law**, established in 1859, offers the degrees of juris doctor, master of laws, master of laws in taxation, master of studies in law, and doctor of juridical science. The school also offers the Master of Laws International Executive Master's Program in South Korea.

The **J. L. Kellogg School of Management**, established in 1908 as the School of Commerce, offers the master of business administration degree. In addition to the full-time program, Kellogg also offers the evening Managers' Program on the Chicago campus, the weekend Executive Master's Program on the Evanston campus, and the International Executive Master's Program in Canada, Germany, Hong Kong, and Israel.

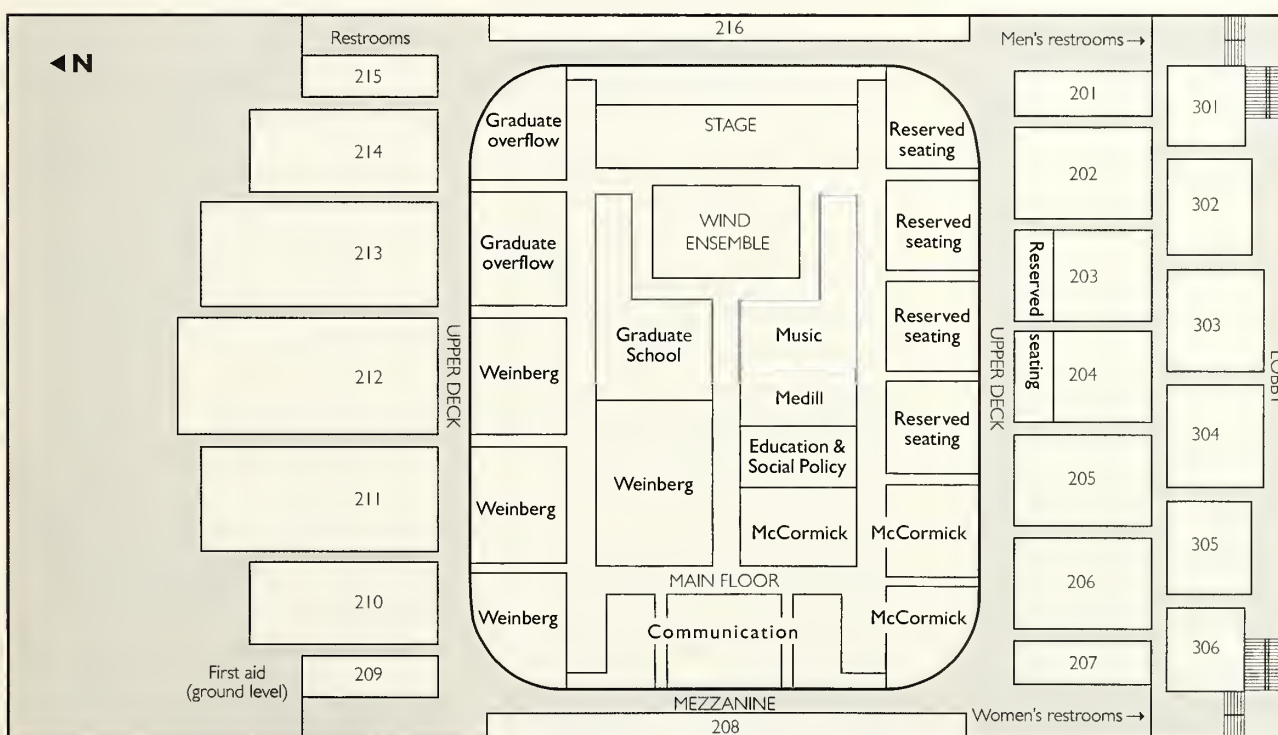

The **Feinberg School of Medicine**, established in 1859 as the Medical School, offers the degrees of doctor of medicine, doctor of physical therapy, and bachelor of science in medicine.

The **School of Music**, established in 1895, offers the degrees of bachelor of music and bachelor of arts in music. In its graduate division, the School of Music offers the degrees of doctor of music and master of music and the certificate in performance.

ACADEMIC PROCESSION

The procession begins with the participating schools of the University. Each school group is preceded by its banner. The formation within each school begins with those graduates receiving the highest degree awarded by that school; doctoral candidates are followed by master's candidates, who in turn are followed by bachelor's candidates. Following the graduates are the University faculty, trustees, administrators, and deans. The president's party, led by the senior class Commencement committee, completes the procession.

ACADEMIC DRESS

Modern academic attire originated in the medieval universities of Europe, where gowns were worn daily to provide warmth in poorly heated buildings and to differentiate scholars from other citizens. Two English universities, Oxford and Cambridge, are particularly noted for developing the authentic academic costume, which has changed only slightly through the centuries.

In the United States most academic dress follows the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1959. Under this code the gowns' trim and sleeve design indicates the level of the degree. The bachelor's gown has pointed sleeves and is worn closed; the master's gown has oblong sleeves with an arc at the bottom and may be worn open or closed; and the doctor's gown, which may also be worn open or closed, has velvet facings down the front and three velvet bars on the bell-shaped sleeves. This velvet trim may be black or the

prescribed color of the academic area. The recommended color for gowns is black, although many institutions have adopted colored gowns. Graduates of foreign universities wear gowns of various colors.

The style of hood identifies the level of the degree, the school that granted it, and the academic area. Hood length and border width show the level of the degree. The bachelor's hood, which is optional and not worn at Northwestern University, is three feet in length; the master's, three and one-half feet; the doctor's, four feet. The velvet border of the hood is two, three, and five inches wide for the bachelor's, master's, and doctor's degrees, respectively. The hood is lined with silk in the official color of the school. At Northwestern the hood is lined in purple (the school's color) and gold. The color of the hood's border — and at Northwestern the color of the cap's tassel as well — indicates the academic area. At Northwestern the colors for the Graduate School constitute an exception; tassels are black, but the border color of the hood indicates the specific degree awarded.

The square black mortarboard is the recommended cap, although some schools have adopted other styles. Caps are worn throughout the Commencement ceremony, except that men remove them for the national anthem, invocation, and benediction.

At Northwestern University members of the following honor societies may be recognized by the honor cords, medallions, and stoles worn: Alpha Sigma Lambda national honor society, burgundy and gold honor cord; Deru honor society, purple and gold honor cord;

Eta Kappa Nu electrical engineering national honor society, red honor cord; Kappa Theta Epsilon national honor society for cooperative engineering education, maroon and gold honor cord; Mortar Board senior honor society, silver and gold honor cord; Omega Chi Epsilon chemical engineering honor society, maroon honor cord; Pi Sigma Alpha national honor society, brass medallion with red ribbon; Pi Tau Sigma mechanical engineering honor society, blue and rose honor cord; Tau Beta Pi national engineering honor society, white and orange honor cord; Zeta Phi Eta national professional fraternity in communication arts and sciences, pink and ivory honor cord.

The tassels and borders of the hoods are the following colors:

Judd A. and Marjorie Weinberg College of Arts and Sciences	White
School of Communication	Silver gray
School of Education and Social Policy	Light blue
Robert R. McCormick School of Engineering and Applied Science	Orange
Graduate School (tassel)	Black
<i>Border colors:</i>

HONORARY DEGREES

FRANCIS S. COLLINS

Doctor of Science

As director of the National Human Genome Research Institute, physician-geneticist Francis S. Collins has overseen the Human Genome Project, the international effort to map and sequence the entire human DNA. Collins has immediately made the project's data available without restriction to the worldwide scientific community, thereby greatly accelerating genetic research. After completing a PhD in physical chemistry at Yale University, Collins earned an MD from the University of North Carolina and was awarded a fellowship in human genetics at Yale before joining the University of Michigan faculty in 1984. He quickly gained renown as a pioneering gene hunter, developing the technique of "positional cloning" to identify the genes responsible for cystic fibrosis, Huntington's disease, and numerous other disorders. Collins has been elected to the Institute of Medicine and the National Academy of Sciences.

Presented by J. Larry Jameson, chair, Department of Medicine, and Irving S. Cutter Professor of Medicine, Feinberg School of Medicine

Many regard the Human Genome Project — the quest to read the entire human genetic code — as the most important scientific effort of our time. As our nation's top gene hunter, you led this monumental project to completion — ahead of schedule and under budget. You continue to expand our knowledge of genetic variations and their relation to disease, most recently in identifying genes for susceptibility to diabetes and macular degeneration. By freely sharing your discoveries, you have advanced worldwide efforts to develop gene-based strategies for disease prevention. By working to protect the privacy of genetic information and to ban gene-based insurance discrimination, you have helped ensure that science is our servant rather than our master. We are all greatly in your debt.

CATHY N. DAVIDSON

Doctor of Humane Letters

Vice provost for interdisciplinary studies and Ruth F. DeVarney Professor of English at Duke University, Cathy N. Davidson has distinguished herself both as a scholar and as a leader in promoting interdisciplinary exchange in academia. After graduating from Elmhurst College, Davidson earned her MA and PhD in English from the State University of New York at Binghamton and pursued postdoctoral study at the University

of Chicago. She is the author or editor of 18 books, including *Revolution and the Word: The Rise of the Novel in America* (1986) and *Closing: The Life and Death of an American Factory*, winner of the 1998 Mayflower Cup Award for Nonfiction. A past president of the American Studies Association and former editor of *American Literature*, Davidson received the 1999 Distinguished Retiring Editor Award from the Council of Editors of Learned Journals.

Presented by Betsy Erkkila, Henry Sanborn Noyes Professor of Literature, Judd A. and Marjorie Weinberg College of Arts and Sciences

Your book on the rise of the American novel was immediately recognized as a definitive contribution to the interdisciplinary field of American studies. At Duke University you have led efforts to nurture the kind of wide-ranging scholarship and teaching for which you are yourself renowned. As Duke's first full-time vice provost for interdisciplinary studies, and one of the first in the nation to so serve at the provost level, you oversee approximately 60 interdisciplinary research centers and institutes — including the John Hope Franklin Humanities Institute, which you helped to create. A widely respected author, editor, and president of your professional association, you have made major contributions to your field. We are pleased to recognize your signal contributions to our nation's academic life.

TROY DUSTER

Doctor of Science

A widely influential sociologist who earned both bachelor's and doctoral degrees from Northwestern, Troy Duster is a professor of sociology at New York University and Chancellor's Professor at the University of California, Berkeley. Among his numerous publications — exploring sociology in relation to such subjects as law, science, deviance, inequality, race, and education — are the books *The Legislation of Morality: Drugs, Crime, and Law* (1970) and *Backdoor to Eugenics* (1990), both considered landmarks in their fields. Most recently he coauthored *Whitewashing Race: The Myth of a Colorblind Society* (2003), which won the Benjamin Hooks Award. Recipient of a Guggenheim Fellowship and a Ford Foundation Senior Research Award, Duster has chaired the board of directors of the Association of American Colleges and Universities and is currently president of the American Sociological Association.

Presented by Gary Alan Fine, John Evans Professor of Sociology, Judd A. and Marjorie Weinberg College of Arts and Sciences

Reared in poverty on Chicago's South Side, you have risen to become one of the most widely respected and influential sociologists of our time. In a body of research spanning virtually every aspect of sociology, you have consistently marshaled solid data to draw striking conclusions that affect scholarly thought and often political debate. In particular, you have exposed how race affects enterprises as wide-ranging as medicine and criminology. In addition to holding two prestigious academic appointments, you are recognized internationally for your skill as a speaker, teacher, adviser, and mentor. In academia you have been a tireless advocate for broadening educational opportunities for historically underrepresented minorities. We thank you for the honor you bring to your alma mater.

THOMAS L. FRIEDMAN

Doctor of Humane Letters

A three-time Pulitzer Prize winner, Thomas L. Friedman has covered the Middle East, the White House, and the world at large in a journalism career spanning nearly three decades. After graduating from Brandeis University and earning a master's as a Marshall Scholar at Oxford, Friedman served as a United Press International correspondent in London and Beirut. In 1981 he joined the *New York Times*, where he has held positions as Beirut bureau chief, Israel bureau chief, chief diplomatic correspondent, chief White House correspondent, and international economics correspondent; since 1995 he has served as the *Times* foreign affairs columnist. *From Beirut to Jerusalem*, which he wrote on a Guggenheim Fellowship, won the 1989 National Book Award for nonfiction. He has won further acclaim for his books *The Lexus and the Olive Tree* (2000) and *The World Is Flat* (2005).

Presented by John W. Madigan, trustee, Northwestern University

As one of our country's most illustrious journalists, you have won three Pulitzer Prizes for work on topics as varied as domestic politics, international economics, and foreign affairs. Whatever the subject, you demonstrate an unerring talent for making the complex comprehensible and for drawing unexpected conclusions from familiar facts. Today you serve as the *New York Times* foreign affairs columnist, only the fifth person to hold that prestigious position. You have won further honors for your insightful and influential books — *From Beirut to Jerusalem*, widely used as a textbook in Middle East studies, and *The*

Lexus and the Olive Tree and *The World Is Flat*, where you broaden your gaze to a global perspective. We thank you for helping us better understand our world.

JOHN S. MCCAIN III

Doctor of Laws

Republican Senator John S. McCain of Arizona has earned the widespread respect of both parties for his independence and integrity. As a naval aviator after his graduation from the U.S. Naval Academy, McCain was shot down in Vietnam and spent five and a half years as a prisoner of war in Hanoi. He retired from the military in 1981 with the rank of captain, having earned the Silver Star, Bronze Star, Legion of Merit, Purple Heart, and Distinguished Flying Cross. Elected to the U.S. House of Representatives in 1982 and to the U.S. Senate four years later, he gained prominence as an advocate for campaign finance reform; his 2000 presidential candidacy further enhanced his national stature. McCain currently chairs the Senate Committee on Indian Affairs in addition to serving on the Armed Services and the Commerce, Science, and Transportation Committees.

*Presented by David Weinberg, trustee,
Northwestern University*

In a nation increasingly polarized along party lines, you are that rare public figure who commands equal respect on both sides of the aisle. You have achieved this stature through a political career marked by fierce independence and unquestioned integrity. Refusing to be bound by labels, you base your positions on what you believe is right. Daring to take on a powerful array of special interests, you achieved a historic victory with the enactment of landmark campaign-reform legislation. Even before entering public life, you won our admiration and gratitude for your much-decorated military service and, in particular, the years of horror you endured as a prisoner of war in Vietnam. We gratefully honor you for your distinguished service to our country.

EMILE FRANCIS SHORT

Doctor of Laws

A leader in Africa's struggle for human rights, Emile Francis Short has headed Ghana's Commission on Human Rights and Administrative Justice (CHRAJ) since its establishment in 1993. After receiving his law degree with honors from the University of London and a master's in law from the London School of Economics and Political Science, Short headed a legal firm in Ghana from 1974 to 1993, in addition to teaching law at Ghana's University of Cape Coast. Under his leadership CHRAJ has battled government corruption, mediated disputes between citizens and

the government, and promoted human rights, including gender equality, freedom of expression, and prisoners' rights. Short's successes in Ghana have brought him increasing international attention; he has served as president of the African Ombudsman Center, a judge on the International Criminal Tribunal for Rwanda, and a human rights consultant for other African nations.

Presented by Richard Joseph, director, Program of African Studies, and professor of political science, Judd A. and Marjorie Weinberg College of Arts and Sciences

In the face of daunting financial constraints and persistent political obstacles, you have achieved a truly remarkable record of accomplishment as the head of Ghana's Commission on Human Rights and Administrative Justice. As an advocate for a broad spectrum of human rights, you have fearlessly fought corruption at the highest levels of government, expanded citizens' access to judicial redress, and maintained a staunch independence from political pressures. By helping democracy take root in Ghana, you have become one of your country's most widely respected public servants and have assumed an increasingly prominent role in fostering human rights in the African continent as a whole. In honoring you today, we add our voice to yours in advocating peace, democracy, and social justice.

NANCY L. STOKEY

Doctor of Science

Frederick Henry Prince Professor of Economics at the University of Chicago, Nancy Stokey is considered one of the most remarkable economists of her generation. After earning a BA from the University of Pennsylvania and a PhD from Harvard University, she taught at Northwestern's Kellogg School of Management for 12 years, chairing the Department of Managerial Economics and Decision Sciences for two years and eventually holding the Harold L. Stuart Professorship of Managerial Economics. Stokey has done outstanding work in both theoretical microeconomics and macroeconomics. Coeditor of the *Journal of Political Economy* and a past coeditor of *Econometrica*, she coauthored the standard text *Recursive Methods in Economic Dynamics* (1989). Stokey has served as vice president of the American Economic Association and is a fellow of the American Academy of Arts and Sciences and a member of the National Academy of Sciences.

Presented by Morton I. Kamien, Joseph and Carole Levy Distinguished Professor of Entrepreneurship and professor of managerial economics and decision sciences, J. L. Kellogg School of Management

In a distinguished academic career that began here at Northwestern and continues to flourish at the University of Chicago, you have won

widespread acclaim for the rigor and theoretical sophistication of your work as well as its implications for economic policy. Your research has produced major scholarly advances in microeconomics and macroeconomics. In your important work on economic growth and development, you have examined such areas as social mobility, the limits of growth, and the economies of developing nations, bringing crucial insights to bear on issues of vital significance. Your peers have recognized you through numerous awards and prominent professional positions. We join in saluting your remarkable achievements and are delighted to welcome you back to Northwestern.

JAMES N. WOOD

Doctor of Fine Arts

As director and president of the Art Institute of Chicago from 1979 to 2004, James N. Wood achieved renown as one of the world's most highly respected museum directors. A graduate of Williams College and the Institute of Fine Arts at New York University, he began his career under Metropolitan Museum of Art director Thomas Hoving before serving as curator of Buffalo's Albright-Knox Gallery and then for five years as director of the St. Louis Art Museum. During his tenure at the Art Institute, he expanded the facilities, oversaw more than 40 renovation projects, attracted major donations, vastly increased the endowment, enhanced and broadened the museum's collections, initiated international collaborations with other top museums, compiled books highlighting the museum's holdings, and reinforced the institute's scholarly focus, even while mounting artistically and intellectually important exhibitions that also proved to be wildly popular.

Presented by Sarah E. Fraser, chair and associate professor, Department of Art History, Judd A. and Marjorie Weinberg College of Arts and Sciences

As director of the Art Institute of Chicago for almost a quarter of a century, you proved yourself the very model of a modern major museum director. You led the Art Institute through ambitious building campaigns, major renovations, and expansion of collections, never losing sight of the museum's educational role and scholarly mission. Through joint efforts with French, Japanese, and Russian museums, you raised the Art Institute's already high profile on the international scene. Yet whether planning new construction, strengthening the endowment, or arranging new acquisitions, you demonstrated your selfless commitment to your work — shunning the limelight and letting the art take center stage. As you open a new chapter in your life, we are proud to welcome you to the Northwestern family.
